

Swivel Mount for Curved TVs

INCREASE THE VIEWING RANGE IN YOUR ROOM

The SANUS model VLC1 Swivel Mount was designed specifically for use with curved TVs. Engineered with 11° of swivel, the ideal viewing range is increased by over 20°* making your seat in the room, the best seat. Fits curved TVs 40" - 80" and up to 150 lbs.

*When compared to an unmounted curved TV.

Perfect for use with curved TVs

Top View

Swivel your TV up to 11° for perfect viewing anywhere in the room

Smooth motion for easy adjustment of TV position

Allows height, level and side-to-side adjustments after installation

Safety tab provides a safe and easy connection you can hear

Open design allows mounting over wall boxes and electrical outlets

TV SIZE RANGE

40"-88" / 101.6 – 223.5 cm

WEIGHT CAPACITY

150 lbs / 68 kg*

*Steel stud applications: 130 lbs / 58.9 kg

DIMENSIONS (W X D X H)

30" x 2.68" x 16.97" / 76.2 x 6.8 x 43.1 cm

MOUNTING PATTERNS

400 x 400 | 600 x 400

Curved TVs Are Better With SANUS Swivel Mount

CURVED TV UNMOUNTED

On either end of the curved TV, the screen is approximately 8–10° off parallel. This means that curved TVs have a 15–20° reduced functional viewing angle when compared to standard flat panel TVs. The ideal viewing angle of a curved TV is even more limited, resulting in fewer viewing locations in a room.

CURVED TV WITH SWIVEL MOUNT

Horizontal rotation is critical to most curved TV installations. The SANUS model VLC1 Swivel Mount design, with up to 11° of swivel, brings the leading edge of the TV past parallel to the wall, increasing the ideal viewing range by over 20°. This allows for additional ideal viewing locations within the same room.
