Cant stress enough how much I love this stand!

November 26, 2016

I got a pretty nice entertainment center that can hold up pretty much any tv nowadays however gone are the days of the central stands on tvs. Most have the legs on the very ends of the TV and that makes it a problem for those of us with stands that can support the weight but not the length.

Thats where this stand comes in, its sturdy and heavy. Heavier than my 55 inch samsung curve I got but it mounts perfectly. Comes with multiple bolts and screws to fit pretty much any TV sort of like a Wall Mount. Honestly installation is similiar as well just without the stud finder.

✓ I would recommend this to a friend!

Great TV mount!

December 16, 2016

Perfect option for those who want a bigger TV but do not want to mount on wall and/or have a smaller width table to set it on. Our TV came with two small legs at either end of tv and would not fit safely on most tables. This definitely allowed us to mount TV safely.

✓ I would recommend this to a friend!

★★★★★ 5

great mount, no holes in my wall!

November 13, 2016

Great mount for the money, it took me about 20 minutes to get it set up and it's very sturdy. Im not looking down at my TV anymore and I didn't have to put any holes in my wall. I only needed a phillips head screwdriver very simple.

✓ I would recommend this to a friend!

Heavy duty tv stand!

December 2, 2016

I purchased this to keep my investment safe and it does a great job!!!

 I would recommend this to a friend!

5

Great Product

December 2, 2016

Easy to set up and is really sturdy. The adjustable height is really nice because the TV does not need to account for shelf space.

 I would recommend this to a friend!

Does it's job well

December 17, 2016

The factory supports on my Samsung TV didn't fit my space well, but this stand did. Well-packaged with good instructions. Assembly went well with the only minor challenge found in selecting the best spacers/screws for the back of my TV (would be great if you could search your TV on the manufacturer's website to find recommended spacer/screw). With TV on the stand, it is stable and the cord management works well. Appreciate the adjustable height/angle/etc. Would buy again.

 I would recommend this to a friend!

Good product

December 19, 2016

We were looking for a TV stand for our 3 year old, 60 inch Vizio television. This was the only option at our Best Buy store. It ended up working just fine. Set up wasn't bad. I wanted this option for our living room wall because I didn't want to look at a bunch of wires. We needed the stand because we couldn't locate our original from 3 years ago.

 I would recommend this to a friend!
