

UBIQUITI – LEVEL 1

Course duration: 1 hour

Course cost: This course is **FREE** to attend

This free hour long session is a basic introduction to the Ubiquiti Unifi range of Wi-Fi Access Points (AP's) for domestic use.

The agenda for the training is as follows:

- We will cover the Unifi installation software and how it works
- The different access points and their features and benefits
- The use of 2.4Ghz & 5Ghz frequencies and how they differ
- It will give you a basic understanding of home wireless networks and access point
