

ELAN[®]

Certified Two Day Training

Get in touch to **book your place today.**

Join us for the new ELAN Hands-On Certification Training

ELAN are offering Certification training courses for home control for our industry leading automation and control solution. Training is part of our primary commitment to continuously supply excellent solutions to clients. This Certification course will provide a valuable insight into the ELAN Home Automation system and its award-winning user interfaces.

Starting at 9.00am, our interactive training will take you on the ELAN journey and will introduce you to the ELAN Product family and how to programme a system using the ELAN gTools Configuration software.

All delegates will be fed and watered throughout the day and we should finish up by 5.00pm.

Questions?

Please contact:

- ▶ **Lee Harding: leeharding@alltrade.co.uk**
- ▶ **Ronan McTernan: ronanmcternan@alltrade.co.uk**
- ▶ **Mark Bartlett: markbartlett@alltrade.co.uk**

**To book your place please email
training@alltrade.co.uk**

- ▶ Please bring a Windows laptop with the software loaded before arrival.
- ▶ Please contact the office for details of local hotels.

Note on MAC Computers: Due to the many variables in the setup of a MAC running Windows emulation software, the trainer will NOT be able to assist in any troubleshooting on the MAC computer. It is the responsibility of the dealer to be proficient with the proper settings to make MAC computer functional with the g! software.

ELAN[®]

Certified Two Day Training

The two day ELAN Certification course will cover the following details.

Day 1

System Setup

- ▶ Updating controller Firmware and IP information. Setting regional preferences and local weather for astronomical event mapping. User Interface customisation.

Climate

- ▶ Adding Thermostats, setting user schedules and adding event map for automated climate scenarios.

Lighting

- ▶ Addition of 3rd party lighting system, system auto-discovery, setting basic lighting templates and use of custom pages for scene mapping and lighting commands.

Security

- ▶ Z wave integration of door locks with Vera Edge and Yale Z Wave Door locks.

ELAN[®]

Certified Two Day Training

The two day ELAN Certification course will cover the following details.

Day 2

Media

- ▶ Addition of streaming audio sources and standard AV sources such as Apple TV / Sky HD. Display and Projector control. Zone (Room) creation with AVR, Matrix or Audio amplifiers.

Messaging and Intercom

- ▶ Automated system notifications, push messages and setting up 3rd party door stations to act as SIP client.

Event Mapping

- ▶ Event Maps or Macros will be created to automate all connected subsystems using conditional logic, variables and Booleans.

And More

- ▶ We will cover other supported subsystems and look at IR learning of devices that are not in the IR repositories as well as covering many of the dedicated resources online and on the ELAN Dealer Portal to help you configure a successful system.
