WM-11 Quad gold 4mm sockets

The Systemline Wallmount range has been designed to fit standard Euro Data fascia plates of 50x50mm. Each unit comes supplied with a quality MK Logic Plus white plate, but you can fit the inner module into a vast selection of plates available to match other sockets in the room. The range offers all the popular speaker switches, speaker volume control and speaker socket outlets for your installation.

Features

- Quad bank of gold plated solid brass 4mm sockets
- Solder / screw connection
