

Datasheet

PROXIMIY READERS/ KCPROX-WLC - Combined

Product description

The KCPROX-WLC from CDVI is a stainless steel proximity card reader and keypad.

As with the other readers from the range, the KCPROX-WLC gives an anytime status of the door through multi-coloured LED's.

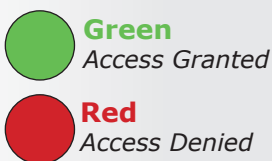

This access control reader has a high performance read range and is easy to mount.

Digicode®

Key features

- Combined proximity reader & keypad
- Low power consumption
