

Clear Flow Gateway Controller • 4 Output

The Clear Flow Gb Core Gateway Controller is at the heart of a Clear Flow installation, providing routing, control & multiple PoE ports. The onboard programming and management software can manage up to 200 APs with features such as bandwidth control, WLAN & VLAN & multiple LAN options.

SPECIFICATION

Product:	CF-GWPOE
Core Gateway Dual Core GB Gateway with 48v PoE	
Hardware	Mt7621A Chip, DDR 512MB, Flash
32MB	
Ports	1 x 1000Mbps WAN 1 x 1000Mbps LAN 3 x 1000Mbps WAN/LAN
	1 x USB2.0
	1 x USB3.0
	1 x console
	1 x power
Power	100-240V AC 50/60Hz, 50W
MTBF	>250000H
IP INDEX	IP31
Size	280x180x44mm

Clear Flow Power Injectors • 320 & 500mA

SPECIFICATION

Product Range:	CF-PI32	CF-PI50
Clear Flow Power Injectors		
Ports - Mbps	2x10/100	2x10/100/1000
POE Total	15.4W	24W
POE Voltage DC(+5%)	48V	48V
Max POE Current	320mA	500mA
Input Voltage AC	100-240V	100-240V
Input AC Frequency	50-60Hz	50-60Hz
Size	91x45.5x30mm	97.5x53.5x35.3mm

PoE power injectors for powering Clear Flow devices. Compatible with AIR, WAP or BEAM products in the Clear Flow range. Supplied with 3 pin UK plug.
