

## Fibre Management

## Customer Termination Box CTB30

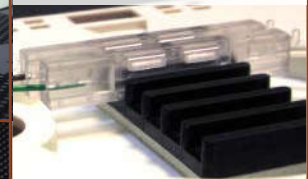

KeyFibre optical wall box is a customer termination box dedicated to optical networks: multimode, G652D and G657 singlemode fibres. There are 4 protected output optical ports inside it. Thanks to its ergonomic and compact design, the KeyFibre® Customer Termination Box can be installed easily in buildings, at home, in business premises and offices. **Two (2) cable entries and SC, FC, LC, E2000, PC and APC, output connections.**

The unit is supplied with base, cover and splice tray, fixing screws, cable ties, splice protectors and installation instructions. Optical Pigtails, Adapters, KeyQuick® Mechanical Splice, and Splice Holder are optional items and can be sold separately, as a kit, unassembled. Contact KeyFibre Customer Service for further information.

### Related Items & Accessories

#### Mechanical Splice MS201

### Features & Benefits

- Compact & attractive design for interior wall mounting.
- Flip tray to allow access to connectorised tails and cable entry
- Easy optical management, "self-clip" open-closed method
- Easily wall mounts to buildings
