FLOOR STANDING & IN-CEILING

Triggering the most primal emotional responses, the M1500 Subwoofer establishes a sonic foundation upon which the entire Marquee system is built. Timbre matched to the rest of the Marquee loudspeakers, the M2500 shares the same dynamic response and life like nuance in an in-ceiling format. It is a perfect choice for side, rear and Atmos® channels when the architectural design demands

ROCK SOLID AMPLIFICATION

Built to deliver the necessary horsepower to drive the M1500 Sub, the SubA500 pulls no punches. Internal digital processing and 500 Watts of Class-D amplification will drive the 15" pro-style woofer to levels that will hit you in the chest like a freight train.
