TVoE : TV & DATA over a SINGLE Ethernet Cable

No Coax Infrastructure Required

Transform Your Entertainment and Connectivity with TRIAX TVoE

TRIAX TVoE is the ultimate solution for seamless TV and internet distribution using standard CAT5E or superior Ethernet cables – **perfect for installations without an existing coaxial infrastructure.**

- **All-in-One Connectivity:**
Transmit both TV signals and high-speed internet data efficiently over a SINGLE Ethernet cable, eliminating the need for coaxial wiring.
- **Customisable Signal Quality:**
Built-in, high-performance adjustable amplifier and equalizer allow you to fine-tune the TV output level for optimal signal quality across all connected devices.
- **High-Speed Data Transfer:**
Supports up to 1 Gbit/sec throughput, ensuring smooth streaming, gaming and browsing.
- **Power over Ethernet (PoE):**
Supports PoE to the TVoE Receiver eliminating the need for a separate power supply at the receiver unit.
- **Multi-Room Distribution:**
The TVoE Controller features FOUR Ethernet ports supporting TV and internet data up to four separate locations. Perfect for multi-room or point to point distribution. Mix and match receivers to suit the application.
- **Supports long cable runs:**
TV up to 100m & Gbit Data up to 110m.
- **Hassle-Free Installation:**
Designed for quick, easy setup – ideal for domestic, commercial and multi-dwelling applications.
- **LAN PoE Receiver Option:**
Use TVoE Rx+ 310711 to support 802.3af Class 3 PoE Devices such as VOIP Phones, IP Cameras or Access Points.
(Requires 310721UK/310723EU TVoE PSU+)

Article No.	TVoE Product	Includes LAN PoE	No LAN PoE	Comments
310700	4 Way Controller			TV and Internet inputs, 4 combined TV + Internet outputs, TV input signal level gain and slope adjustment on each combined signal output, test point, PoE function
310710	Rx Receiver		•	
310711	Rx+ Receiver	•		
310720	UK PSU 60W		•	Use with non-PoE LAN Rx
310721	UK PSU+ 96W	•		Must use with PoE LAN Rx+
310722	EU PSU 60W		•	Use with non-PoE LAN Rx
310723	EU PSU+ 96W	•		Must use with PoE LAN Rx+
